About Us

NanoPRO has been launched to support the growing needs of nanotechnology based companies in reaching new markets, sourcing new customers and promoting the benefits of their products and the importance of nanotechnologies.

Our PR service reaches all corners of the globe, all industry sectors, and includes a plethora of research scientists. We have over a decade's worth of experience working with internationally based institutions, corporate companies and innovative SMEs.

At our finger tips is a network of journalists, news aggregators, bloggers and most importantly buyers of new technologies, innovators and innovative companies wishing to add value to their customers' product experience.

Nanotechnology Marketplace Listing:

Whether you are selling intellectual property services, a newly released nanotechnology book or carbon nanotubes we can promote your skills and advanced technology products to new markets and new customers. List your product in categories such as:

- Books; Certifications; Events;
- Characterisation and Measurement;
- Consumer Products; Courses; Materials;
- References, publications and journals;
- Services; Tools; Job Listings

You'll receive a dedicated web page for the promotion of a product or service. This page can be updated regularly and contain hyperlinks to your website and brochures plus company logo, contact details and product photos. Lengthy descriptions are encouraged to promote sales leads.

Annual fee: £50

Investor Network:

A network for investors, innovators and innovative companies to exchange best practice, case studies and ideas which will lead to investment deals and wealth generation.

Technology Transfer Network:

A network for technology scouts, universities, intellectual property advisors, and professionals involved with tech transfer and commercialization processes.

Supply Chain Network:

A network for manufactures, end-users, handlers, re-sellers and all those involved in the supply of nanotechnology base products to the marketplace. Exchange information and ideas on standards, best practice and an opportunity to share views on such as dissemination, labelling, user guidance and public dialogue.

Packages include a web profile including logos, links and documentation

Annual fee for each network: £100

Nanotechnology for Business

There are a variety of ways to learn about nanotechnologies and through our extensive knowledge base, NanoPRO will assist companies in understanding how the latest advances can lead to innovation and the improvements of products and process allowing businesses to access new sources of income, new markets and raised visibility to potential customers.

NanoPRO Reports

To assist companies in understanding how nanotechnology could benefit products and processes, NanoPRO will be publishing a report entitled "What EVERY company should know about nanotechnology".
